

Controller

Controller

kpiMvcApi.Controllers.HomeController

```
classDiagram
    class Controller1[Controller]
    class Controller2[Controller]
    class HomeController["kpiMvcApi.Controllers.HomeController"]
    Controller1 <|-- HomeController
    Controller2 <|-- HomeController
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'kpiMvcApi.Controllers.HomeController'. Two arrows point upwards from this box to two separate boxes at the top, both labeled 'Controller'. The left arrow points to the bottom-left corner of the left 'Controller' box, and the right arrow points to the bottom-right corner of the right 'Controller' box. This indicates that 'HomeController' inherits from both 'Controller' classes.
